## 1. General / Introduction

---

### 1.1. Note for Tourism Boards

Please note that the products that concern only the Tourism Boards (Tourismusverein/Associazione Turistica) are listed in a separate price list, which Tourism Boards can download at [www.lts.it](http://www.lts.it).

### 1.2. Prices

The prices quoted do not include support. Support will be billed based on the expense incurred. **All prices given here are in reference to 01/01/2019 and are subject to change at any time and without notice.**

#### Setup costs for widgets (unless otherwise defined):

- Initial Setup/Installation per customer: € 200,00
- Second Setup/Installation per customer: € 100,00
- All other Setups/Installations per customer: € 50,00

It is generally recommended to carry out your own setup depending on the Channel/URL to be used, in order to obtain meaningful statistics.

#### Setup costs for data interfaces (unless otherwise defined):

- Per Setup/Installation: € 200,00

It is generally recommended to carry out your own setup depending on the Channel/URL to be used, so as to avoid affecting all channels simultaneously in the event of problems on the customer's part.

In the case of simultaneous orders of multiple data interfaces the setup occurs only once.

### 1.3. Widget

Widgets are to be understood as prefabricated html/javascript blocks. These can be integrated without major expense by third parties in websites and, to a certain extent, can be optically adapted to their own needs using CSS. Widgets are not indexed by search engines in general. For this reason, it is possible on some widgets to retrieve some basic data by means of a data interface in order to make it available to the search engines.

For widgets there are no subscription rights. The service can be terminated at any time without notice. There is no right to compensation. For most widgets statistics can be created by the customer by integrating Google Analytics.

### 1.4. Data Interfaces

For data interfaces, no statistics are supplied through LTS.

For each data interface a contract must be signed prior to activation.

### 1.5. Portal / Channel

If a portal links to a service-portal, it is not seen as integration.

Popups are not links and are seen as integration.

Multiple URLs with the same content are considered as a single channel.

Different channels are e.g. various websites, print, APP, Info Point, hotel information system, ...

### 1.6. Bandwidth cap

LTS assumes that customers use the offered data interfaces in a fair manner. By fair we mean that the use stands in an acceptable relationship to other clients of LTS. If a customer does not adhere to this principle, LTS reserves the right to disable the interface when necessary without prior notice.

## 2. HotelData

This area contains the description, including photographs, prices and availability of properties.

### 2.1. Widget (Hotelfinder)

There is an additional light interface for indexing through search engines.

Any additional adjustments (e.g., creating a special filter) will be charged based on the expense incurred.

**Setup prices:** see **Prices**

**Annual costs:**

Tourism Board (Tourismusverein/Associazione Turistica)	no annual fees *
Other channels	on request

\* = The widget can be used for its own products, but also in cooperation with partners.

When using the Light interface, the one-time setup costs for the interface incurred are accrued in addition. See [Prices](#)

### 2.2. Data interface:

**Setup prices:** see **Prices**

**Annual cost per channel:**

Tourism Board (Tourismusverein/Associazione Turistica)	€ 880,00
Property (Beherbergungsbetrieb/Struttura alberghiera)	€ 150,00
Other Channels (1 portal/channel)	€ 3641,00
Other Channels (2 to 3 portals/channels)	€ 7282,00
Other Channels (4 to 10 portals/channels)	€ 10923,00

## 3. EventData

This section contains the events

### 3.1. Widget (Eventfinder) - free version

The Eventfinder Widget offers a free - as is - version, which is ready to use and completely free of charge. This version (WidgetID: Its-eventfinder-free) does have all features and covers all events and regions of South Tyrol, but is not customizable in his basic configuration.

Currently there is **no** additional Light interface available for creating a search engine optimized index page.

**Setup prices:** no setup fee  
**Annual costs:** no annual costs

### 3.2. Widget (Eventfinder) - customizable version

Customizable Eventfinder.

Currently there is **no** additional Light interface available for creating a search engine optimized index page.

**Setup prices:** see **Prices**

**Annual costs:**

Tourism Board (Tourism Association/Associazione Turistica)	no annual fees
Other channels	no annual fees

### 3.3. Data interface:

**Setup prices:** see **Prices**

**Annual costs:**

Tourism Board (Tourismusverein/Associazione Turistica) no annual fees \*

Other Channels

- 1 to 3 portals/channels: € 1339,00
- 4 to 10 portals/channels: € 2678,00
- 11 to 20 portals/channels: € 4017,00
- 21 to 30 portals/channels: € 5356,00

\* = Only when dealing with direct/own products to the customer.

## 4. Gastronomic Data

---

This area includes data from gastronomy services.

### 4.1. Widget

Currently there is **no** additional Light interface available for creating a search engine optimized index page.

**Setup prices:** see **Prices**

**Annual costs:**

Tourism Board (Tourismusverein/Associazione Turistica)

no annual fees \*

Other channels

on request

\* = The data interface can be used for its own products, but also in cooperation with partners.

### 4.2. Data interface:

**Setup prices:** see **Prices**

**Annual costs:**

Tourism Board (Tourism Association/Associazione Turistica)

no annual fees \*

Other Channels

- 1 to 3 portals/channels: € 1339,00
- 4 to 10 portals/channels: € 2678,00
- 11 to 20 portals/channels: € 4017,00
- 21 to 30 portals/channels: € 5356,00

\* = Only when dealing with direct/own products to the customer.

## 5. Activity Data / POI Data

---

This section contains data of Activities and POIs.

### 5.1. Widget (POIfinder)

Currently there is **no** additional Light interface available for creating a search engine optimized index page.

**Setup** prices: see **Prices**

**Annual costs:**

Tourism Board (Tourismusverein/Associazione Turistica)  
Other channels

no annual fees \*  
on request

\* = The data interface can be used for its own products, but also in cooperation with partners.

### 5.2. Data interface:

**Setup** prices: see **Prices**

**Annual costs:**

Tourism Board (Tourismusverein/Associazione Turistica)  
Other Channels

no annual fees \*

- 1 to 3 portals/channels: € 1339,00
- 4 to 10 portals/channels: € 2678,00
- 11 to 20 portals/channels: € 4017,00
- 21 to 30 portals/channels: € 5356,00

\* = Only when dealing with direct/own products to the customer.

## 6. OPEN Data

---

This section contains Lifts, Slopes, Cross country ski tracks, Toboggan runs, Webcams and snow reports.

### 6.1. Widget (POIfinder)

Currently there is **no** widget available.

### 6.2. Data interface:

**Setup** prices: no setup fee

**Annual costs:** no annual fees

## 7. Catalogue Requests

---

It is possible to have general availability enquiries and catalogue requests to be forwarded directly/automatically to the TIC-Web offices of the Tourism Boards. This means that the staff of the Tourism Boards no longer have to enter the data manually. If the functionality is built on sites of non-LTS members, the order must be placed, in any event, through the Tourism Board.

### 7.1. Widget

Currently there is **no** additional Light interface available for creating a search engine optimized index page.

**Setup prices:** see **Prices**

**Annual costs:**

Tourism Board (Tourismusverein/Associazione Turistica)	no annual fees *
Other channels	on request

### 7.2. Data interface:

**Setup prices:** see **Prices**

**Annual costs:**

Tourism Board (Tourismusverein/Associazione Turistica)	no annual fees *
Other channels	on request

\* = The data interface can be used for its own products, but also in cooperation with partners.

## 8. PMS Data

---

This area includes interfaces for PMS (Property Management System/Hotel Verwaltungsprogramm/Software alberghiera). The following interfaces are provided:

- Transmission of availability
- Prices
- ASTAT notification
- Local Tax notification
- AlpenBits replication
- Retrieval of enquiries that are generated by various portals

It is not possible to purchase only a portion of the interfaces.

### 8.1. Data interface:

**Setup prices:** no setup fee

**Annual costs:**

Property – members of the tourism association (Beherbergungsbetrieb/Struttura alberghiera)	no annual fees *
Property – NOT members of the tourism association (Beherbergungsbetrieb/Struttura alberghiera)	€ 240,00

Note: This prices will be applied for AlpineBits server and client replication too. No activation fee will be applied for the single property.

## 9. E-mail enquiries forwarding directly to properties

---

With this interface, the enquiries that are generated by a portal can be forwarded directly to LTS. Then LTS forwards the enquiries directly to the properties (Beherbergungsbetrieb/Struttura alberghiera). PMS (Property Management System/Hotel Verwaltungsprogramm/Software alberghiera) can automatically process the enquiries if they are connected to LTS via AlpineBits.

### 9.1. Data interface:

**Setup prices:** see **Prices**

#### Annual costs:

Tourism Board (Tourismusverein/Associazione Turistica)  
Other channels

no annual fees \*  
not available

\* = The data interface can be used for its own products, but also in cooperation with partners.

## 10. InfoPoint FRZ

---

This is the basic availability (vacant/occupied) is given for each property without detailed information. For this reason a software (LTS Downloader) is installed on the PC, which stores a regularly updated file on the PC which can then be evaluated at regular intervals.

### 10.1. LTS Downloader:

Price **configuration**: € 290,00

Price **installation** LTS Downloader: based on expense incurred

#### Annual costs:

- 1 Info Point: € 340,00
- 2 Info Points: € 505,00

## 11. Offers for 2019

---

When ordering multiple interfaces through NON-LTS members the LTS grants the following price discounts:

HotelData + Gastronomic Data + Event Data + POI Data / Activity Data = Price of HotelData + Gastronomic Data

Gastronomic Data + Event Data + POI Data / Activity Data = Price of Event Data + POI Data
